Dear Customer:

In the event that you have a residential meter larger than a 5/8" or 3/4", the District is providing the opportunity for District customers, who demonstrate that they are conscientious water users to receive a 12 month reduction in the WR & ESF charge. The reduction would reduce the charge on your bill to \$16.50 per month for a period of one year. (\$16.50 is the WR & ESF fee charged on 3/4 and 5/8 inch meters). In order to qualify for this reduction, your previous 12 month consumption should not exceed tier four of our billing system. This means that you used no more than 24 units of water per month in the cold season (Oct-Mar) and no more than 36 units of water per month in the warm season (Apr-Sept). To obtain a twenty four month consumption history for your account, please contact customer service at 949-858-0277. Please review your consumption and return this completed form to apply for this twelve month fee reduction.
